

**FIVE
POINTS
UNION**

Connecting Communities

In collaboration with the community, a transformative new vision is being proposed for the Phillips 66 Wilmington Refinery and the Rancho LPG property. The re-imagined sites will remove the existing refinery and butane tanks and build an entirely new project with community uses and job generation at its core:

This is the Five Points Union Project.

A new Town Center will be created, with restaurants, playgrounds, outdoor gathering spaces and sports facilities. A Commerce Center, with modern industrial buildings, will provide new jobs to fuel the local economy. Five Points Union is a chance to beautify and revitalize these legacy sites and shape an ambitious new future for the community.
